

About Dr. Gloria Gilbere...

Known as **The Health Detective**, Dr. Gloria is a doctor of natural health, a certified dental professional, homeopath, a dietary supplement counselor, EcoErgonomist and

Wholistic Rejuvenist. She is renowned worldwide for her work in identifying and implementing natural and nutrition-based solutions to chemically-induced and inflammatory disorders, multiple chemical sensitivities, fibromyalgia, chronic fatigue, and digestive disorders that defy conventional diagnosis and treatment.

She is founder of the Institute for Wholistic Rejuvenation and consults worldwide via telephone, Skype, and by special arrangements at her west coast office in Gig Harbor, WA.

She is an acclaimed Syndicated Talk-show host, Dr. Gloria - Health Detective, author of 18 books, 8 courses and over 1,700 health articles with over 112,000 readers.

To consult with her visit her website at www.gloriagilbere.com or call 208.255.5252 (Pacific Time, 8: to 2: Closed Friday). Be sure to subscribe to her FREE Health Detective Blog available on the homepage of her website - access to Webinars, Podcasts, Articles, Teleseminars, downloadable mp3s, online classes, specialized eBooks, and much more.

She is creator of certificated courses to become a Wholistic Rejuvenist© (CWR) and post-graduate education credits for health professionals. Her courses are accredited by international medical schools and teaching hospitals.

The Value of Tissue Mineral Analysis (TMA)...

It measures levels of 29 major nutrient minerals and 8 toxic metals. Mineral imbalances and toxic metal levels in the body can lead to many disorders including, but not limited to:

- adrenal & thyroid exhaustion;
- immune system & digestive disorders;
- multiple allergic response syndromes & brain-fog;
- headaches & memory loss;
- hair loss/thinning;
- sleep disorders;
- skin disorders.

The full report of analysis includes a detailed discussion about health and disease manifestations based upon the levels and ratios for wellness. A diet plan will be presented identifying your current metabolic type and individualized supplement and dietary recommendations.

Suggested re-testing (at a reduced rate) is 3-4 months after modifications have been implemented.

This kit provided by:

Institute for Wholistic Rejuvenation

Dr. Gloria Gilbère, CDP, DA Hom, ND, PhD, DSC, EcoErgonomist, Wholistic Rejuvenist, HTMA Practitioner **Worldwide consultations via Skype and phone.**

This Kit Contains:

- Small white envelope for hair sample;
- Client health questionnaire, **MUST** be fully completed;
- Paper scale for weighing correct amount of hair sample;
- Mailing label to return materials to Dr. Gilbère for laboratory submission;
- Instruction Sheet
- Contact information

IMPORTANT:

Once laboratory results are received by the Institute, we will call or email you to arrange a one-to-one consultation to interpret results and provide appropriate dietary modifications specifically for you.

Normally, you will be scheduled for consultation approx. 3 weeks from date of submission.

NOTE: The cost of the TMA (hair analysis) **INCLUDES** your consultation with Dr. Gilbère via telephone or Skype. It covers only recommendations/interpretation of your analysis results, it is not a new client consultation to cover other health concerns. If you choose to do a full 90-minute new client consultation at a later date, your cost is reduced by \$100 from the new client cost - if you mention you've already had the Institute provide a (TMA) hair analysis at the time you schedule.
